BUS TRANSPORT CHANGES FOR 2023

In 2023 there will be changes to the provision of bus services by GEM Shuttles and Stubbs Tours to and from Bridge House. From January these two companies will be totally outsourced, and the termly fares charged for daily transport will no longer be invoiced to the school accounts.

Both GEM Shuttles and Stubbs Tours will continue with the same routes and times as in 2022 but the arrangement for the doily service will be directly between them, as the service provider, and the parents who wish to make use of the service.

GEM Shuttles and Transport (Pty) Ltd, is managed by Edward and Evan Arendse who have two routes which provide transport from Franschoek through La Motte to school. Their other route transports students directly from Boschenmeer, Val de Vie and the Pearl Valley Estates along the R301 Wemmershoek Road.

Please contact Edward to find out more information

Both of these companies have provided a wonderful service for numerous years to many Bridge House families and will continue to do so in 2023.

The Bridge House Bus will continue with morning transport only from Stellenbosch and that service will be by arrangement with the school administration office and those termly fares will be invoiced to the school accounts.
